Europe, Africa & Middle East	+44 (0) 20 8867 6305
Asia (except China/Korea)	+86 21 5869 8668

Important Notification

EDIUS 9 requires SHA-2 hash algorithm code signing to be active Grass Valley hardware driver. All versions of Windows 7, Windows 8.1 and Windows 10 already support SHA-2 code signing, but if you are running Windows 7, you will need to install Security Updates.

SHA-2 code signing requires installation of Windows 7 updates in order to use Grass Valley hardware. There are following two ways to support SHA-2 code signing:

Obtain the latest update (recommended)
Obtain the latest update from Windows Update

Install two security updates
Install TWO Security Updates on Windows 7. Download stand-alone installer files from Microsoft website then run the installer. They MUST be installed in the following order.

1. [Security Update for Windows 7 for x64-based Systems (KB3035131)](#)
2. [Security Update for Windows 7 for x64-based Systems (KB3033929)](#)

If they have not been installed, installed Grass Valley hardware may not work.

Update History

The following issues are fixed or improved in this version:

EDIUS

- Not working jog operation in VTR emulation (only Workgroup and optional license required) (SFDC00664243)
- EDIUS timeline playback status randomly changes to 'Stop' (SFDC00680829)
- Placed audio is played slowly in the timeline (SFDC00666553)
